USCIS

Dear Sir/Madam,

I am writing to provide a character reference for Ekaterina Pushkarskaya, who has been a patient at our pediatric practice (Friendly Pediatrics, Dr. Boris Ripa MD) since her first visit with her eldest daughter. Ekaterina has consistently brought her children to our office for their annual check-ups and other medical needs.

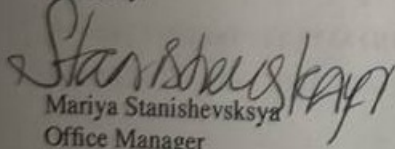

Ekaterina first visited our office with her daughter for a routine check-up. Over the years, she has brought both of her children, including her second child, for regular appointments. On several occasions, she was accompanied by her husband, Robert Aronov. They were a lovely couple. However, around the middle of 2020, Ekaterina informed us that she and her children would be relocating to Florida due to the COVID-19 pandemic and her separation and future divorce from her husband Robert Aronov.

For a period, we did not see Ekaterina or her children, as they had moved out of state. However, our practice recently opened a location in Florida, and I am pleased to inform you that Ekaterina's children have resumed their care with our practice at our new location in Florida.

Ekaterina has always been a diligent and caring mother, ensuring her children receive timely and appropriate medical care. Our interactions with her have always been positive, and she is a valued member of our patient community.

Please feel free to contact me if you require any further information.

Sincerely,

Mariya Stanishkevskaya
Office Manager
